## WD® MINI SWITCHES

### WD® MINI SWITCH 4 POLE TRIPLE THROW

Another creation from the mind of Kent Armstrong. A combination of an on/off/on and on/on/on switch rolled into one piece. Kent originally designed this switch to replace the 2 switches per pickup in the Brian May Guitar, but the possibilities are virtually unlimited. It can be used in many other applications. Round actuator levers. Includes mounting nuts and washers. Length of threaded bushing 5/16 in., 1/4 in. diameter, 5/8 in. cavity depth.

Color	SKU	Price
CHROME	WDE8	\$19.95

### WD® MINI SWITCH ON/OFF/ON

SKU	Price
STAGEPRO ANTHEM	\$429.00

### L.R. BAGGS® BELTCLIP MIXER

Dual input belt clip preamp/mixer allows you to combine two of just about any sort of pickup or mini-mic. No need to butcher a prize guitar for on-board electronics or carry around a heavy rack. Circuitry is 100% Class A and discrete from input to output, every control you need to tune each pickup to perfectly compliment the other. Combined signal is routed then through an entirely passive EQ.

SKU	Price
MIXPRO	\$249.00

### L.R. BAGGS® BELTCLIP PREAMP

Single-channel belt-clip preamp that will work with most pickups. It also provides 9v phantom power for mini-mics and other phantom-powered onboard electronics. Everything necessary to get the best possible sound from your pickup. Two-band EQ and variable low cut is amazingly flexible and intuitive to use.

SKU	Price
GIGPRO	\$139.00

### L.R. BAGGS® PARAMETRIC EQ / D.I.

Studio quality direct box combined with a feature packed, state-of-the-art preamp and equalizer. Proprietary quasi-passive EQ circuitry is totally transparent and allows control over voicing without sacrificing tone. Brings out the best in any pickup and will make you sound better.

NYLON STRING	IMIX-C	\$329.00

### L.R. BAGGS® ELEMENT PICKUP PAIRED WITH TRU-MIC AND MIXING PREAMP

Revolutionary new amplification system features patent pending Tru-Mic microphone technology. The mic is mounted to the bridge plate inside of the guitar to capture the majority of your guitar's true voice in a way that only a microphone is capable of, plus it is amazingly feedback resistant. The Element under saddle pickup carries only the lowest frequencies for punch and authority. A sound hole mounted controller has volume, mix and phase controls with a battery check feature so you can always be sure of your battery at any gig. Now you can plug in, crank it and sound more real than you ever thought possible.

SKU	Price
ANTHEM	\$429.00

### L.R. BAGGS® ELEMENT PICKUP PAIRED WITH TRU-MIC PRESET EQ AND VOLUME CONTROL

The SL, with a pre-set mix between the mic and pickup and all of the electronics are housed in the end pin, features only a small volume control at the sound hole.

It is ideal for non-standard sound hole sizes and for those of you that don't want a larger control unit hanging on the guitar top. Now you can plug in, crank it and sound more real than you ever thought possible.

Description	SKU	Price
STEEL STRING	ANTHEM-SL	\$289.00
NYLON STRING	ANTHEM-SL CLASSICAL	\$289.00

### L.R. BAGGS® iBEAM ACTIVE SYSTEM

### GHOST® LOADED GRAPH TECH® RESOMAX® NV BRIDGE

Tune-o-matic style bridge made of super-light weight alloy to increase harmonic content. Less mass means greater vibration at a greater range of frequencies, so the sound of the guitar body really comes through in the mix. Combined with GHOST® pickup system, this bridge creates harmonic content that can't be matched. One component of the GHOST® modular pickup system. 4mm or 6mm posts.
