About WD® Custom Pickguards

WD® Custom Pickguards are American made and hand crafted to order. We manufacture replacement pickguards in house, for all of the most popular guitar models. Standard pickguard templates can be modified to any control or pickup configuration. If you're not sure which model you need, send in a tracing or drawing of your pickguard for a custom hand made guard.

Instructions for Tracings and Ordering

- 1) Please use only a clean, sharp-pointed writing instrument such as a pencil, pen, or fine tip roller pen. (Do not use magic markers or anything with a wide tip)
- 2) Please trace carefully, top side up, on a piece of paper (Standard printer/copier paper is recommended. You may tape two pieces of paper together for oversized guards. (Please do not use napkins, tracing paper, corrugated cardboard, etc.) Faxes and photocopies are not acceptable.
- 3) Please do not cut out the tracing once completed. Be sure to trace everything cut into the pickguard. (Pickup holes, switch slots, potentiometer holes, mounting screw holes and pickup height adjustment screw holes). If you are deleting, relocating or changing electronics on the pickguard, place them in the positions required. Pickup changes must show exact locations, dimensions and manufacturer.
- 4) Please do not send a box with your tracing. You may fold the paper and mail it in a standard business envelope.
- 5) Please include with your tracing two forms of contact information. (Your email and a day/night phone number)

When ordering standard templates you will need to add the two or three digit material number to the end of the pickguard model number. For example, an ST-2** pickguard in material #01 would be ordered as ST-201.

Please note: Your custom guard can only be as good as your tracing, so take your time and follow the above instructions, as custom pickguards (non-standard templates) are non-returnable.

Please remember to indicate the color of the pickguard that you're requesting and provide contact information for yourself so that we may notify you of the cost of your custom guard.
